

The cover shooter that everyone can play

Become Zap - dreamer, fighter, and maybe just the hero the galaxy needs! Robots have invaded your planet, and they don't even see you as a threat. Beat the odds and SAVE THE GALAXY in this twin-stick cover shooter with lock-on targeting!

Zap Blastum caters to both hardcore and casual gamers with its action packed tactical combat, colorful art style, and accessible controls . . . Zap's pretty cute too.

A true cover system in a top-down shooter

This slows the action down, putting the focus on planning ahead rather than twitch. Snap into cover, auto-lean while shooting!

No aiming – Just lock-on!

- Move Zap with the left stick
- Move Target Cursor with the right stick
- Select a target with the right trigger
